

Senior Front-End Developer

Duality is a well-funded B2B tech start-up in the field of data privacy, offering data collaboration solutions for enterprises in the financial services, pharmaceutical, telecom sectors, and more.

We are hiring a Senior Front-End Developer who will take an essential part in all aspects of Duality's SecurePlus product development.

Key responsibilities:

- Lead Front-End technology by mentoring, introducing best practices, performance optimization, security considerations and more
- Develop Front-End Architecture
- Develop a Complex User Interface for various types of product users
- Develop and maintain Front-End CI process
- Deliver high-quality code with excellent automatic test coverage

Requirements:

- Vast experience (5+ years) in Front-End development: ReactJS, HTML/CSS, Webpack
- Understanding of Front-End and API security aspects
- Knowledge in WebAssembly
- Knowledge of UI design principles, design patterns and best practices.
- Previous experience with Python, MongoDB, Docker, Linux
- Experience with test automation tools, such as Selenium or Cypress
- Analytical and problem-solving skills
- B.Sc. in Computer Science / Software Engineering or equivalent
- English - high level, verbal and written

Desired Skills:

- Basic understanding of Data Science principles (statistics, ML, etc.)
- Experience with Data Science tools / frameworks / platforms
- Familiarity with CI/CD methodologies

Pay will be commensurate with experience

Duality Technologies is an equal opportunity employer - M/F/Vets/Disabled/LGBT
